|-----------|--|
| MA-141-1 | General view of site from track bed. View to east. |
| MA-141-2 | General view of site showing abutments and water main spanning tracks. View to east. |
| MA-141-3 | Bridge approach from south end of roadway. View to north. |
| MA-141-4 | South abutment. View to southwest. |
| MA-141-5 | View across railroad right-of-way, showing north abutment and new concrete bridge seat. View to north. |
| MA-141-6 | General view of inner face of west truss leaning against north abutment (note scale at center vertical). View to north. |
| MA-141-7 | Closer view of west truss, showing one of two center panels with diagonal counters. View to north. |
| MA-141-8 | Closer view of west truss, showing two end panels. View to northwest. |
| MA-141-9 | Closer view of west truss, showing configuration of diagonals, verticals and lower chord members. View to northeast. |
| MA-141-10 | Closer view of outer face of east truss deposited on hillside east of crossing, showing two end panels. View to northeast. |
| MA-141-11 | Detail of west truss, showing upper chord connection. View to north. |
| MA-141-12 | Detail of east truss, showing upper chord connection at hip joint. View to northwest. |
| MA-141-13 | Detail of east truss, showing upper chord connection to outrigger, vertical post and diagonal eyebar. View to northeast. |
| MA-141-14 | Detail of east truss, showing cast iron number plate on inclined endpost. View to east. |

TREMONT STATION BRIDGE
(N.Y.N.H.&H.R.R. Boston-Provincetown Bridge No. 45.38)
(Pierceville Road Bridge)
HAER No. MA-141
(page 2)

- MA-141-15 Detail of upper side of east truss at bearing point, showing pin connection and curved plate which was part of roller bearing assembly. View to northeast.
- MA-141-16 Detail of lower side of east truss at bearing point, showing lower chord attachment to endpost. View to west.
- MA-141-17 Detail of lower chord of east truss, showing pin connection through eyebars and U-bolt hangers from which floor beams hung. View to northwest.
- MA-141-18 Detail of lower chord of west truss, showing pin connection through lower chord assembly, diagonal eyebars and vertical posts. View down and to east.
- MA-141-19 Detail of lower chord of east truss, showing pin connection through lower chord assembly and U-bolt hangers. View northwest.
- MA-141-20 Detail of lower chord of west truss, showing pin connection through lower chord assembly, hip verticals and U-bolt hangers.
- MA-141-21 Detail of east truss, showing outer end of outrigger sway braces which fastened to outer ends of floor beams.
- MA-141-22 View of two of original five floor beams on ground near south abutment. View to east.
- MA-141-23 Detail of outer end of floor beam, showing anchor brackets for lower lateral rods (center). View to south.
